company has vast and diverse professional experience, financial strength and advanced engineering knowledge alongside with high execution capabilities in the group which lead to a perfect residential concept. The company's projects across Israel include a particularly high construction standard, attentive architectural planning and environmental development and a lavish technical spec with a high level of service.

The company is building hundreds of apartments in the framework of "Mehir LaMishaken" (government price-capped projects) and has populated over the past few years numerous projects across Israel. In the framework of its "urban renewal" projects the company is promoting several projects which include thousands of apartments in the cities of Tel Aviv, Givat Olga, Hadera, Bat Yam, Yavne, Hod HaSharon and more.
